Description

With this purchase you will get:

01

Phalaenopsis White - Pink Plant

01

6 inch Grower Round Plastic Pot (Black)

Description for Phalaenopsis White - Pink

Plant height: 24 - 37 inches

Plant spread:

Phalaenopsis is one of the most popular orchids in the trade, through the development of many artificial hybrids.

Common name(s): Moth Orchid

Flower colours: White-Pink

Bloom time: Late winter through the spring

Max reachable height: 15cm to 1m (6in to 3ft)

Difficulty to grow: Easy

Planting and care

Sunlight: Prefer dappled light (an east or west facing windowsill behind a net curtain is ideal).

Soil: They should be potted in a more typical houseplant mix that holds some moisture but still drains well.

Water: Do not let the soil dry out. Water Phalaenopsis regularly throughout the growing season. Reduce watering slightly during the winter.

Temperature: Night temperatures in the range of 16-19 degrees C (61-66 degrees F) and day temperatures between 19-30 degrees C (66-86 degrees F)

Fertilizer: Give a quarter strength fertiliser once a month.

Caring for Phalaenopsis White

Too much bright light can burn the leaves and turn the plants yellowish while too little will result in plants with soft leaves that don't flower. Repot after flowering. Don't over pot; wash the old compost from the roots before working the new compost gently and firmly around the roots.

Typical uses of Phalaenopsis White

Special features:

Ornamental use: They are one of the most popular indoor orchids.

Pot seems to be really small. DO I have to shift the plan to the bigger pot as it starts growing in a few months?
