Philodendron Cordatum (Green, Hanging basket) Plant

01

7.1 inch Corsica No. 18 Hanging Round Plastic Pot (Black)

Description for Philodendron Cordatum (Green, Hanging basket)

Plant height: 3 - 5 inches

Plant spread: 5 - 9 inches

Philodendron is an evergreen climber, with heart-shaped glossy leaves long leaf-stalk. The leaves have extremely pointed tips. The leaves look slightly brownish and almost transparent when they are emerging, but they quickly become deep green as they grow to maturity.

Twining stems of this plant will either trail from a pot or climb up a column if given support. Spathes of white flowers appear in mature plants and flowers infrequently appear on mature indoor plants.

Common name(s): Philodendron cordatum

Flower colours: White

Bloom time: Any time of the year but mainly in summer (Rarely flowers indoor)

Max reachable height: Up to 20 feet

Difficulty to grow: Easy to grow

Planting and care

The Heartleaf Philodendron is an evergreen vine that thrives in partial shade at moderate temperatures. In tropical regions it can survive outside, however, in most place, it is used strictly as a houseplant. The soil surrounding the Philodendron must be kept moist but not soggy.

Sunlight: Bright filtered or indirect light

Soil: Well-drained sandy soil

Water: Moderately

Temperature: Minimum 15 degrees C

Fertilizer: Feed every month from during spring and summer especially when new leaves are growing.

Caring for Philodendron Cordatum

- Place in bright indirect light. Avoid full sun.
- Water regularly during the growing season, but reduce watering in fall to late winter.
- Pinch trailing stems to promote bushier growth.

Harvesting

NA

Typical uses of Philodendron Cordatum

Special features: Foliage

Culinary use: NA

Ornamental use: The plant is used as an ornamental plant.

Medicinal use: NA
