Pink Lily, Hybrid Lotus (Pink, light Lavender) Plant

### Description for Pink Lily, Hybrid Lotus (Pink, light Lavender)

**Plant height:** 19 - 29 inches

**Plant spread:**

Best grown in moist, acidic, humusy soils in part shade to full shade. Plants may be grown from seed, but will not flower for 4-5 years. Quicker and better results are obtained from planting corms which are sold by many bulb suppliers and nurseries. In addition, offsets from mature plants may be harvested and planted

**Common name(s):** Kamal, Lotus

**Flower colours:** pink

**Bloom time:** April

**Max reachable height:** upto 0.50 feet

**Difficulty to grow:** easy to grow

## Planting and care

**Sunlight:** Full sun to part shade

**Soil:** Muddy water

**Water:** They grow in water

**Temperature:** 21 C

**Fertilizer:** Apply any organic fertilizer

## Caring for Pink Lily

- The Lotus plant should be fertilized sparingly for the first year.
- Too much fertilizer may cause the Lotus foliage to burn.
- A Lotus plant that is established can be fed every 3 or 4 weeks during the growing season.
- Care must be taken when inserting fertilizer tabs, because the growing tip and new growth can be damaged.
- It is important to protect the Lotus roots from freezing.
- Lotus can winter over in the pond if the pond depth is below the freeze line for your area.
- In late fall, the yellowed foliage should be cut off and the plant lowered to the deepest part of the pond.
- Or you may lift the tubers after the plant has died back during the fall.
- If you lift the tubers, store them in a cool, frost-free location until late spring.
- To help prevent mildew and rotting, store them in living sphagnum moss.

## Typical uses of Pink Lily

**Special features:** Naturalize in moist soils in shaded areas of native plant gardens, shade gardens, woodland gardens or wild/naturalized areas. Also grows well in pond or stream banks or in shady areas of rock gardens.

**Ornamental use:** The plant is used for ornamental purpose. Its generally kep outdoor in pond.

**Medicinal use:** The flower is used to brew lotus teas, which relieves cardiac complications and helps to stop bleeding.
