Description Evergreen tropical tree of medium size, to 7 m height, with greenish-yellow or yellow-white foliage looking like lettuce, the thin leaf blades lanceolate and corrugated 10-30cm long, undulate at margins, clusters of tiny greenish-white flowers, and 2cm long-stalked fruit from female blooms. Cooked leaves are eaten as a vegetable.

Height: Upto 15 feet.

Difficulty level: Easy.

Planting & Care

Sunlight: Full sun.

Soil: Sandy soil.

Water: Water the plant regularly but do not over water.

Temperature: Hardiness upto 40 degrees F.

Fertilizer: Apply standard liquid fertilizer.

Use

Ornamental use:

- The plant stands out on its own in the garden.
- Pisonia Alba can be grown in pots and it also makes a good hedge when planted closely together.
-
