Description

**With this purchase you will get:**

01

Sedum Confusum Plant

01

3 inch Grower Round Plastic Pot (Black)

## Description for Sedum Confusum

**Plant height:** 0.5 - 0.8 inches

**Plant spread:** 2 - 4 inches

Sedum confusum is a sprawling ground cover which forms a foliage mat spreading by trailing stems. Features succulent, shiny, bright green leaves which typically form rosettes at the ends of stems rising to 10" tall.

Clusters of yellow, star-like flowers appear in summer. Sedum confusum is appropriately possessed of uncommon qualities. Unlike ivy, gazania and ice-plant, it does not get woody and does not build thatch.

The fleshy oval dark green leaves concentrate toward the tips of arching branches, forming lush mounds.

**Common name(s):** Lesser Mexican stonecrop

**Flower colours:** Yellow

**Bloom time:** April

**Max reachable height:** 0.25 to 0.75 feet

**Difficulty to grow:** Easy to grow

## Planting and care

Plant sedum seeds in early spring in well-drained, average to rich soil in full sun. Space the plants between 6 inches and 2 feet apart, depending on the type. Low-growing and vigorous species will tolerate partial shade.

**Sunlight:** Full Sun to Partial Shade

**Soil:** Well-drained soil

**Water:** Medium

**Temperature:** -20.6 degrees C (-5 degrees F) to -17.8 degrees C (0 degrees F)

**Fertilizer:** The plant is used for an ornamental purpose.

## Caring for Sedum Confusum

- Plant sedum seeds in early spring in well-drained, average to rich soil in full sun. Space the plants between 6 inches and 2 feet apart, depending on the type.
- Low-growing and vigorous species will tolerate partial shade. You can also plant divisions or cuttings instead of seeds.
- Dig a hole so that the top of the root ball is level with the surface, then place the plant in the hole and fill it in.
- Once established, sedums require little care. Check your plants regularly to make sure they are not dry and water when needed.
- After flowering, cut back the plants to maintain their shape.
- Remember to divide your plants in the spring or fall to control their spread. Throughout the summer, divisions and cuttings root readily.

## Typical uses of Sedum Confusum

**Special features:** Used as Ground cover, Borders, Rock gardens, Hanging baskets. May be difficult to find in commerce.

**Culinary use:** NA

**Ornamental use:** The plant is used for an ornamental purpose.

**Medicinal use:** NA
