Selinum tenuifolium Plant

### Description for Selinum tenuifolium

**Plant height:** 9 - 15 inches

**Plant spread:**

It is an erect, tall, glabrous and hairy, perennial herb can reach a height of 3 to 6 feet. It is a long-lived, tuberous-rooted, plant bearing large umbels of thousands of tiny five-petalled white flowers from midsummer to early autumn.

The basal leaves are delicate & thin, finely divided, giving them a fern-like appearance. The fruits are elliptic-ovoid in shape, flattened with ridges and having broad lateral wings.

The plant is grown as a hardy garden ornamental, suitable for informal mixed or shrub borders or woodland gardens, The roots are used to treat abdominal pain.
