Description

Gardens can contain flowers, plants, herbs, vegetables, and decorative elements. Using pebbles in a garden brings different colors and textures to the garden. Pebbles can also fill up otherwise empty space in the garden, leaving a visual that might be considered more interesting and aesthetic than simple dirt, soil or mulch. Pebbles in the garden can serve other purposes, such as creating a decorative border or a landscaped path, providing a pretty ground and soil cover, and providing dry garden beds. Pebble a garden with a mix of pebbles and minerals that complement the vegetation in the yard.

Great finish and glossy as promised. Sizes are smaller but quality beats everything else. Not ideal for big enclosures as pebbles are small in size.

Size of pebbles are too small compared to description given. It is good if some one is looking for small sizes.
