Description

Gardens can contain flowers, plants, herbs, vegetables, and decorative elements. Using pebbles in a garden brings different colors and textures to the garden. Pebbles can also fill up otherwise empty space in the garden, leaving a visual that might be considered more interesting and aesthetic than simple dirt, soil or mulch. Pebbles in the garden can serve other purposes, such as creating a decorative border or a landscaped path, providing a pretty ground and soil cover, and providing dry garden beds. Pebble a garden with a mix of pebbles and minerals that complement the vegetation in the yard.

Features:

- Superior quality
- Recognized as the best landscaping stones
- Need no maintenance

shiny pebbles. If you want to insert these in small vases it is a problem.
