olivo de Java, chammahong,  
homrong, samrong, gorapu  
badam, pee,  
pottaikavalam, Gewöhnlicher  
Stinkbaum .

## Planting and care

Choose a warm, sheltered location when growing. The vining varieties require a support structure as some can get 15 feet tall. All plants prefer sun to light shade sites with well-draining and moderately fertile soil. Install the plant in the ground at the same level it was growing in the nursery pot.

Sunlight Part shade	Soil well-drained soil	Water Medium	Temperature 18 - 32c	Fertilizer Apply any organic fertilizer
