### Description of Strawberry Gardening Kit

Strawberry Gardening Kit contains 5 saplings (Fully grown small plants) of Strawberry plants along with 5 unbreakable thermoform pots and 5 Kg nutrient rich ready to use soil.

Strawberries are worlds most favorite berries. The most interesting part of the strawberry is that it bears fruit with seeds on the outside rather than the inside.

Strawberries are known for its unique taste and the medicinal uses.

The word strawberry is derived from the old English streawberige, because the plant sends out runners that are similar to pieces of straw.

Strawberries are a rich source of vitamins and minerals imparting its antioxidant properties which help to keep you healthy and glowing.

## Garden Kits: Strawberry Gardening Kit

---

Grow them easily in a pot or a container for fruits that are best to satisfy your taste buds.

### How to Grow and care for Strawberry Plant?

Growing strawberries is an easy task. You can easily grow strawberry plants in pots. Just follow below caring tips for your strawberry plant and enjoy the sweetness of fruits.

- Once you receive the plants, allow them to settle to your location and then transplant in the pots.
- Even if the plants are dropping, do not worry they will revive and grow well.
- Strawberry plants require 4-8 hours a day of direct sunlight, so choose your planting site accordingly.
- Soil in the pots must be well drained and should not be soggy.
- Soil should contain good quality and amount of compost.
- Fruits will set 4-6 weeks after blossoming.
- Harvest strawberries when they are fully ripped.
