Description

Gardens can contain flowers, plants, herbs, vegetables, and decorative elements. Using pebbles in a garden brings different colors and textures to the garden. Pebbles can also fill up otherwise empty space in the garden, leaving a visual that might be considered more interesting and aesthetic than simple dirt, soil or mulch. Pebbles in the garden can serve other purposes, such as creating a decorative border or a landscaped path, providing a pretty ground and soil cover, and providing dry garden beds. Pebble a garden with a mix of pebbles and minerals that complement the vegetation in the yard.

It is not that greqt, stones are not shiny enough as shown in the picture and also bigger in size. Dull colour. Looks like picked up from road

?????? ?????? ?????? ????????
