Description

Description for Tinda desi

Tolerant of pruning and shearing. Little Gem is noted for requiring little pruning. Avoid cultivating around plants because they have shallow roots. Roots appreciate a good mulch (1-2 ").

Common name(s): Indian Round Gourd, Apple Gourd, Indian Baby Pumpkin

Flower colours: green

Bloom time: April

Max reachahle height: 1.50 to 2.00 feet

Difficulty to grow:: Easy to grow

Planting and care

Tinda need a cold, dormant period.

Select a site with soil that drains well.

After a good rain, find a spot that is the first to dry out. Water trapped beneath the scales may rot the bulb, so a well-drained site is essential.

Sunlight: Full sun to part shade

Soil: well-drained soil

Water: Medium

Temperature: 25 to 35 degree C

Fertilizer: Apply any organic fertilizer

Caring for Tinda desi

- Required a bit of effort, but the results are well worth the work. Not all plants are fragrant, but the most common and hardy do produce a sweet, carrying fragrance.
- Common is a vine and has larger glossy green leaves than Royal. Both can survive in temperate climates if they are planted in a sheltered area.

Harvesting

2 weeks
