Description

Description for Torenia (Violet)

Although sometimes classified as a warm weather annual, this species of Torenia is not terribly fond of hot and humid summer weather. Most varieties have purplish-blue flowers with a yellow throat. True to its name, Torenia displays two short wishbone-shaped curved stamens.

Annual best grown in consistently moist, organically rich, well-drained soils in part shade to full shade. Although sometimes classified as a warm weather annual, this species of Torenia is not terribly fond of hot and humid summer weather.

As long as properly sited and watered, it will generally bloom from early/mid summer to frost. Start seed indoors 6-8 weeks before last frost date or sow seed directly in the garden just before last frost date. Plants are often available from nurseries in cell/six packs. Set out seedlings or purchased plants 1-2 weeks after last frost date. Young plants may be pinched to promote compact, bushier growth. Container plants may be brought indoors for winter bloom.

| Common name | Flower colours | Bloom time | Height | Difficulty |
|-----------------|----------------|----------------------------------|-------------|--------------|
| Wishbone flower | Violet | Throughout the summer and autumn | 1 to 3 feet | Easy to grow |

Planting and care

Planting indoors in pots or outdoors in the ground.

Sunlight

Make sure that the plants will receive sunlight each day.

Soil

Well-drained and moist soil

Water

Water them regularly, especially in hot weather, but do not overdo it.

Temperature

They can handle cooler temperatures

Fertilizer

Using a balance 10-10-10 NPK fertilizer, fertilize Torenia plants once every month. Make sure to follow the directions and dosage properly.

Caring for Torenia

- Once your Torenia plants reached about 8 cm high, pinch back the growing tip of the stem to encourage branching.
- This extra care will give you bushy, compact and healthy-looking plants.
- Removing spent bloom heads or deadheading is not really necessary to improve the appearance of your Torenia plants.

Typical uses of Torenia

Special features: Good for Containers

Ornamental use: The plant is used for an ornamental purpose for its beautiful flowers.
