Description

Description for Turnip purple top

This annual vegetable shows a height up to 1 to 3 inches. The roots are smooth and nearly round with purple color on top.

Common name(s): Turnip purple top

Flower colours: NA

Bloom time: NA

Max reachable height: Up to 15 inches

Difficulty to grow: Easy to grow

Planting and care

Start in the spring and again in late summer. Prepare 8 inches bed. Sow a half an inch to 1 inch deep and half a foot apart. Press lightly and keep evenly moist. Seedlings may emerge in 7-14 days. Sow them when the temperature is 60 to 65 degrees Fahrenheit.

Sunlight: Full sun

Soil: Light, loosened deeply, and free of stones

Water: Moderate

Temperature: 18 to 26 degrees C

Fertilizer: Prefer an organic fertilizer.

Caring for Turnip purple top

- Avoid disturbing the soil around the plants.
- Keep the soil moist but not over-watered.
- Monitor for pests and diseases and apply an organic solution at first.
- Mulch heavily in the fall to keep the ground soft.

Harvesting

For turnip greens, pick 4 weeks after sowing.
