Description

Description for Vaijayanti

Many fragrant, small pink-flushed white tubular, funnel-shaped flowers appear all summer through fall. Flowers are about 1.2 cm long, and the stamens and carpel stick to the flower-tube. Chinese Abelia attracts butterflies and hummingbirds. It is also cultivated in gardens.

Common name	Flower colours	Bloom time	Height	Difficulty
-	White	Summer	0.5 to 3feet.	Easy to grow

Planting and care

Full sun is essential with a minimum daylight temperature of 60 degrees F. If soil is amended with compost, the flowers will grow more quickly.
