Description

Description for Zephyranthes Lily Jacala Red, Rain Lily Jacala Red

Leaves are a deep glossy green and measure 3 mm wide. Flowers, which at first resemble a new leaf, but emerge from their papery sheaves to a stunning whiteness; they are erect in perianth.

Common name(s): Rain lily, Autumn zephyr lily, Peruvian swamp lily

Flower colours: Red

Bloom time: After fall

Max reachable height: Up to 20 cm

Difficulty to grow:: Easy to grow

Planting and care

The plants may be grown outdoors year round in moist, organically rich, well-drained soils in full sun.

Sunlight: Full sun to part shade

Soil: Medium wet loamy to sandy soil

Water: Medium. Apply just enough moisture to keep the soils from totally drying out.

Temperature: Minimum 10 degrees C and above

Fertilizer: Use any organic fertilizer.

Caring for Zephyranthes Lily Jacala Red

- Plant 10cm deep in any moderately fertile, moist but well-drained soil.
- Protect from winter wet.
- Generally disease and pest free.
- In fall before the first frost, dig dry and store bulbs for winter in a cool, frost-free location in a medium such as peat or vermiculite that is given minimal moisture.

Harvesting

NA
