Description

Description for Zephyranthes Lily, Rain Lily (Pink)

Rain lilies generally produce three upright petals and three identical sepals, ranging from narrow to broad. The foliage is grassy and bright green. Leaves are a deep glossy green and measure 3 mm wide.

Common name(s): Rain Lily, Magic Lily, Fairy Lily, Atamasco lily, Rainflower, Zephyr Lily

Flower colours: Pink

Bloom time: Monsoon, Summer

Max reachable height: Up to 30 cm

Difficulty to grow:: Easy to grow

Planting and care

Sowing season of Zephyranthes bulbs in the summer season. Dig a hole about three times as deep as the height of the bulb and sow the bulb up to 5 cm deep. Set the bulb in the hole, pointy end up, then cover with soil and press firmly. Space bulbs 4 to 6 inches apart. Water thoroughly after planting.

Use the potting mix for bulb plantation as
Garden soil + Compost + Perlite + Sand (2:2:1:1)
Soil + Cocopeat + vermicompost (2:1:2)

Sunlight: Full sun to part shade

Soil: Sandy loamy to sandy soil

Water: Moderately

Temperature: 20 to 30 degrees C

Fertilizer: Use any organic fertilizer.

Caring for Zephyranthes Lily

- Plant 5 cm deep in any moderately fertile, moist but well-drained soil.
- Protect from winter wet. Mulch the potting mix with organic material.
- Water a plant when the soil feels dry to touch. Water thoroughly in the summer and reduce watering for the winter & rainy season.
- Try to water the plants in the morning around 8-10am.
- You should remove dead, infected or damaged plant parts and throw in the garbage collector.
- You should fertilize a plant mostly in the spring season, flower bud stage.

Typical uses of Zephyranthes Lily

Special features: Flowers look like the star.

Ornamental use: Effective in border fronts, rock gardens and along paths or sidewalks.
