Description Ziziphus mauritiana, also known as Chinese date, ber, Chinee/Chinkee apple, jujube, Indian plum, Regi pandu, Indian jujube and masau, is a tropical fruit tree species belonging to the family Rhamnaceae.

Common name: Chinese date, ber, Chinee/Chinkee apple, jujube, Indian plum, Regi pandu, Indian jujube and masau

Color: White

Bloom time: May to June

Height: 15.00 to 30.00 feet

Difficulty level: easy to grow

Planting & Care

Plants do not thrive in Zones 9 to 10 without a period of refrigeration; they need a cold, dormant period. Select a site with soil that drains well. How can you tell? After a good rain, find a spot that is the first to dry out. Water trapped beneath the scales may rot the bulb, so a well-drained site is essential. Also, select a site that gets full sun.

Sunlight: Full sun

Soil: well-drained soil

Water: Medium

Temperature: 44.6° to 55.4° F

Fertilizer: Apply any organic fertilizer

Care:

- Clean away from around the base of the rosebushes any trimmed debris that can harbor disease and insects.
- Late in the season, stop deadheading rugosas so that hips will form on the plants; these can be harvested and dried on screens, away from sunlight, then stored in an airtight container.
-

Care:

- Clean away from around the base of the rosebushes any trimmed debris that can harbor disease and insects.
- Late in the season, stop deadheading rugosas so that hips will form on the plants; these can be harvested and dried on screens, away from sunlight, then stored in an airtight container.
-

Special Feature:

Primarily grown in home gardens for its fruits. Not commonly grown for ornamental purposes.
